

Home balcony street light solar light

Overview

What is a solar street light?

A solar street light is a raised lighting system powered by a photovoltaic (PV) module charging a battery that runs an LED luminaire at night. Modern systems are off-grid, smart-controlled, and designed to operate through low-sun periods. Pole/brackets & wiring, optional sensors/remote monitoring.

Are solar streetlights environmentally friendly?

If you are looking for an environmentally friendly light source for the street, nothing can beat solar streetlights. These lights save electricity and play a role in minimizing the effect of global warming. Solar streetlights get power from sunlight.

Who makes LED streetlights?

Being the leading LED lights company in 2007, NOMO started to make solar streetlights in 2014. At first, it produced LED strip lights, LED tube lights, and LED bulb lights, and then it launched outdoor LED lights, including LED flood lights and LED streetlights. This company is well known for its tunnel lights, besides solar streetlights.

Who makes LED streetlights in Shenzhen?

Shenzhen NOMO Being the leading LED lights company in 2007, NOMO started to make solar streetlights in 2014. At first, it produced LED strip lights, LED tube lights, and LED bulb lights, and then it launched outdoor LED lights, including LED flood lights and LED streetlights.
