Honduras electrification new energy storage

Overview

How did Honduras respond to the energy crisis?

In 1994, Honduras faced a severe energy crisis, which the government responded to by passing the Framework Law of the Electricity Subsector, permitting the private sector to participate in electricity generation. In 2013, Decree 138 was passed to promote investment in solar PV plants by providing preferential pricing.

What are Honduras' electrification goals?

Honduras's electrification goals are anchored in the Universal Access to Electricity Policy for Honduras (PAUEH). Electrify all schools and hospitals nationwide by 2027. Achieve 100% electrification by 2030 and continue improving electricity service until 2050.

How much money does Honduras need to build a solar PV plant?

Most recently, Honduras has acquired a loan for US \$29.4 million to build a 51.1 MWp solar PV plant. Secretariat of Energy (SEN) is the primary government body responsible for overseeing the energy sector in Honduras.

What does the Secretariat of energy do in Honduras?

The Secretariat of Energy (SEN) is the primary government body responsible for overseeing the energy sector in Honduras, including mini-grid development. It sets national energy policies, plans rural electrification strategies, and coordinates with stakeholders to implement mini-grid projects.
