

How big an outdoor power bank should I bring when traveling

Overview

For a 3-day camping trip, a power bank with at least 20,000mAh is recommended. This capacity can charge a smartphone 4-5 times and support small devices like headlamps or cameras. How much power does a power bank need?

It's a combination of several critical factors: Capacity (mAh): Measured in milliampere-hours (mAh), this indicates how much power the bank can store. For a weekend trip, a 10,000mAh to 20,000mAh power bank might suffice, but for longer excursions or if you have multiple devices, you'll need something more substantial.

Do you need a power bank when traveling?

March 3, 2025 Staying connected on-the-go is a must, whether you're getting directions to a new restaurant, streaming content or joining meetings. When outlets are limited and a low battery is looming, a reliable power bank is essential while traveling. However, navigating airline regulations and choosing the right capacity can be a challenge.

How do I choose a travel-friendly power bank?

This guide will help you understand TSA-approved guidelines, select the best power bank for your travel needs, and follow best practices to keep your devices powered up safely and efficiently. When choosing a travel-friendly power bank, understanding mAh (milliamp-hour) ratings and charging efficiency is key.

Should you carry a heavy power bank?

Sure, carrying a heavy power bank is not the easiest job around. But if you travel a lot, buying a 20,000 mAh, or 30,000 mAh power bank makes sense. With it, you'll be able to fuel your phone and more. As long as you remember to charge the device before you hit the bed, you'll be safe.
