

How much does a 5G base station cost per year

Overview

How much does a 5G base station cost?

Setting up a 5G base station is expensive, with costs ranging from \$100,000 to \$200,000 per site. This price includes hardware, installation, site rental, and maintenance. Urban areas often have higher costs due to land prices and infrastructure challenges.

How big is the 5G base station equipment market?

The 5G base station equipment market is estimated to reach US\$52.733 billion by 2030 from US\$29.865 billion in 2025, growing at a CAGR of 12.04%. 5G base stations form the backbone of next-generation wireless networks, enabling enhanced bandwidth, ultra-low latency, and broader coverage to support rising connectivity demands.

How much does a 5G network cost?

Here's a look at the main costs involved: The core network is the backbone of your private 5G setup. Investing in core network equipment can cost around \$300,000 initially, with annual licensing fees that may reach \$100,000. However, as the market grows, these costs are expected to decrease, making it more affordable for enterprises.

How much will a private 5G network cost in 2027?

As the market for private networks grows, investments are expected to reach \$6 billion by the end of 2027, making it a worthwhile consideration for many businesses. Once a private 5G network is up and running, it's crucial to plan for ongoing expenses to keep everything functioning well.

How much does a 5G base station cost per year

[4G 5G Base Station Market Report , Global Forecast From ...](#)
