

How to install the integrated battery cabinet site

Overview

How is a battery system installed?

installed on a level floor suitable for computer or electronic equipment. Each cabinet in the battery system is placed in its correct location. A cabinet grounding/mounting kit is installed between any cabinets that are bolted together. A ground wire is installed between all cabinets. All conduits and cables are properly routed to the battery.

Where do I install a line-up and match Battery Cabinet?

Line-up-and-match battery cabinets are installed adjacent to the UPS. The recommended installation location is on the right side of the UPS cabinet as viewed from the front of the cabinet. See Figure 3 for line-up-and-match configuration views. Figure 3. Eaton 93PM 100 kW UPS and Two 93PM Integrated Battery Cabinets.

How do I install a battery cabinet?

Connect each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.

Can a battery cabinet be installed indoors?

The system must be installed in a temperature and humidity controlled indoor area free of conductive contaminants. Failure to follow guidelines may void your warranty. • The battery cabinet is rated for operation in up to a 40°C (104°F) ambient temperature.
