

Huawei Avaru Power Energy Storage Project

Overview

Why did Huawei participate in the electricity connect 2024?

The Electricity Connect 2024, held by Indonesian Electricity Society (MKI) and themed Go Beyond Power: Energizing the Future, took place in Jakarta from November 20 to 22. Huawei was invited to participate and received the prestigious Best Partner of Electric Power Digital Transformation and Energy Transition award from the MKI.

What is Huawei digital power?

Huawei Digital Power is dedicated to enhancing the safety and stability of renewable integration by combining digital and power electronics technologies, leveraging technical experience, and collaborating with global power companies, grid enterprises, and electricity providers.

How does Huawei work with partners?

Huawei works with partners to use digital technologies to accurately sense production data, optimize production processes, and implement refined daily management, helping customers achieve safe, efficient, green, and low-carbon power generation.

What is Huawei's intelligent power distribution solution?

Huawei's Intelligent Power Distribution Solution contributes to the implementation of transparent sensing of power distribution transformer districts and the enhancement of intelligent service capabilities, providing users with a greener, more stable and safer power consumption experience.
