

Huawei Canberra rooftop solar panels

Overview

Does rooftop solar work in Canberra?

Solar electricity generated in Canberra will mostly displace coal generation in NSW, along with a smaller amount of natural gas generation. This makes rooftop solar in Canberra very effective at reducing greenhouse gas emissions.

Are solar panels a good investment in Canberra?

With Canberra having so many sunny days a year, solar panels are a great way to reduce your energy bills and contribute to a brighter future. And while solar power has always been beneficial, today it's more accessible and cost-effective than ever.

How many solar panels are installed in Canberra?

We've installed more than 2,600 solar energy systems in Canberra since opening doors here, including the office of Attorney General, Prime Minister & Cabinet Department. So, if you want the solar panels Canberra trusts, call our experienced team today.

Do you repair or install solar panels in Canberra?

We also repair existing PV systems, even if we didn't install them, so if you need assistance, we're here to help. We're the longest standing solar installer Canberra has active today, having been operating in the ACT since 2010 and in solar for over 19 years.
