

Huawei Energy Storage Charging Pile in Rotterdam the Netherlands

Overview

Why is flexible battery storage becoming more popular in the Netherlands?

Roger Miesen, CEO RWE Generation and Country Chair for the Netherlands:
“With the increasing share of renewable energies in the electricity mix, the demand for flexible battery storage is also rising.

How many battery racks will RWE install in Eemshaven?

The company has now finalised its investment decision for a Dutch battery storage project with an installed power capacity of 35 megawatts (MW) and a storage capacity of 41 megawatt-hours (MWh). A total of 110 lithium-ion battery racks are to be installed at RWE’s biomass plant in Eemshaven on an area of around 3,000 square metres.

Is RWE expanding its battery storage business worldwide?

RWE is further expanding its battery storage business worldwide. The company has now finalised its investment decision for a Dutch battery storage project with an installed power capacity of 35 megawatts (MW) and a storage capacity of 41 megawatt-hours (MWh).

Why are batteries so important in the Netherlands?

Batteries are indispensable for the energy transition. Yet the development of battery projects in the Netherlands lags behind that in other countries. This is because batteries in the Netherlands have to pay to take power from the grid.
