

# **Huawei assembles energy storage factory equipment**

## Overview

---

Huawei Digital Power has launched the FusionSolar C&I LUNA2000-215-2S10 Energy Storage System, designed to meet the dynamic demands of the commercial and industrial (C&I) energy storage sector across the country. What makes Huawei a smart grid-forming energy storage solution?

Huawei's intelligent modular grid-forming energy storage solutions deliver three core values—ubiquitous grid-forming capabilities, end-to-end safety from chip to grid, and a unified platform catering to all business models—to expedite the development of a 100% renewable energy-based new power system.”.

Why did Huawei launch '4T' technology?

The launch propelled the renewable energy industry into the grid-forming era. Steven Zhou, President of Smart PV & ESS Product Line, Huawei Digital Power, announced the strategic goal of integrating "4T" technologies (bit, watt, heat, and battery) to build the energy infrastructure for new power systems.

What is Huawei's new residential energy management solution 6.0?

Sun Quan unveiled Huawei's new-generation residential energy management solution 6.0, leading in both green power generation and smart energy consumption. The highlight was the LUNA S1-7kWh residential energy storage system, featuring: Industry-leading 15-year warranty (40% longer than competitors). 40%+ higher usable capacity compared to peers.

What is Huawei digital power?

Huawei Digital Power is dedicated to enhancing the safety and stability of renewable integration by combining digital and power electronics technologies, leveraging technical experience, and collaborating with global power companies, grid enterprises, and electricity providers.
