

India solar container outdoor power BESS

Overview

Where is India's largest Bess battery energy storage system located?

India's largest BESS Battery Energy Storage System project, commissioned by SECI, is located in Rajnandgaon, Chhattisgarh. This solar plant in Chhattisgarh has a 100 MW solar PV plant with a 40 MW/120MWh battery energy storage system. For additional details, visit: [Press Release for Rajnandgaon Project](#).

Are Bess containers made in India?

BESS Containers by APPL Container are proudly Made in India under the Make in India initiative. These modular, pre-engineered containers are ideal for managing and storing electrical energy efficiently. Designed for seamless deployment across solar, wind, and backup energy systems, they ensure grid reliability and emergency readiness.

Why is Bess a good choice for energy storage in India?

BESS is highly adaptable and can be tailored to meet energy needs of homes, industries, and large utilities alike. India's energy storage market is growing rapidly, supported by policy incentives and renewable integration targets.

Can solar-plus-storage transform India's energy landscape?

As a long-term renewable energy partner in India, we recognize the immense potential of solar-plus-storage in transforming the country's energy landscape. We are actively exploring co-located solar and storage as well as standalone BESS projects to support energy security, grid reliability, and sustainable economic growth.
