

Intelligent rechargeable battery cabinet integrated system

Overview

What is intelligent battery integrated system (IBIS)?

IBIS (Intelligent Battery Integrated System) is a collaborative research project carried out in France, bringing together industrial and academic players, Stellantis, Saft (Total Energies Group), E2CAD, SHERPA Engineering, as well as several CNRS laboratories (GeePs, SATIE, LEPMI) and the Lafayette Institute.

Can an energy storage battery integrate inverter and Charger functions?

Saclay, France - After four years of design, modeling and simulation, a team of 25 people comprised of CNRS (French National Center for Scientific Research), Stellantis and Saft engineers and researchers today unveiled an innovative prototype of an energy storage battery that integrates the inverter and charger functions.

How many battery cells are in a battery cabinet?

Each battery cabinet is with 240 battery cells in series with contactor, detective unit, sampling line, battery management systems, fuse, etc. BESS employs a sophisticated, multilevel battery management system (BMS) for system monitoring and control. Each battery management system including:.

What is the icon 100kW 215kwh battery storage system?

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety system all housed within a single outdoor rated IP55 cabinet.
