

Inverter rectifier module manufacturer in Gothenburg Sweden

Overview

Who makes swemodule solar modules?

Solar Modules produced at SweModule by Renewable Sun Energy Sweden AB are designed for various markets and applications. High quality production, combined with strictest process control, ensure maximum lifespan and the highest performance. Next generation goes of grid. Read about the fully solar-panel driven Villa.

Who is rectifier technologies?

We're committed to manufacturing excellence and the highest standards of quality Let's Achieve Your Results. Rectifier Technologies specialises in developing and manufacturing high efficiency power conversion products with a commitment to reliability. Turning Power Electronics Problems Into Results.

Who makes solar modules?

Solar module factory with 120 MW capacity started by REC Solar in 2003. Since September 2016 owned by Renewable Sun Energy Sweden AB. It's one of the most modern and automated module production facility in Europe Solar Modules produced at SweModule by Renewable Sun Energy Sweden AB are designed for various markets and applications.

What is a bridge rectifier module?

The bridge rectifier module is a diode commonly used for converting an alternating current (AC) input into a direct current (DC) output. The diode module that rectify commercial frequencies and high frequency diode modules for freewheel diodes in inverter circuits and for high-speed switching on a surge voltage absorbing circuit.
