

# Ireland pack battery factory

## Overview

---

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Who sells Philips lighting batteries in Ireland?

Power Providers is the recognized distributor in Ireland for Philips Lighting Batteries, highlighting their expertise in the battery sector. Their commitment to delivering premium branded products and a knowledgeable sales team ensures a reliable supply chain for customers.

How sustainable is the battery industry in Ireland?

The battery industry in Ireland has gained significant attention due to the country's strategic location and commitment to sustainability. Key considerations include the regulatory framework, which is influenced by both EU directives and local policies aimed at promoting green technology and reducing carbon emissions.
