# Is the new energy storage industry a manufacturing industry

## Overview

---

How will China's new-energy storage industry grow by 2027?

Photo: VCG China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, enhance innovation and competitiveness, and achieve high-end, intelligent and green industry growth.

Will the energy storage industry thrive in the next stage?

The energy storage industry is going through a critical period of transition from the early commercial stage to development on a large scale. Whether it can thrive in the next stage depends on its economics.

What is China's new energy storage plan?

The plan said that the new-energy storage industry is a key source of support for advancing the construction of a manufacturing powerhouse and promoting the efficient development and utilization of new-energy resources. By 2027, China aims to cultivate three to five leading enterprises in the ecosystem.

What is MIIT's new energy storage plan?

The plan, jointly issued by eight departments including the Ministry of Industry and Information Technology (MIIT) on Monday, seeks to foster high-quality development in the new-energy storage manufacturing.

## Is the new energy storage industry a manufacturing industry

### [China issues action plan to promote manufacturing of new-type energy](#)

On Feb. 10, 2025, China's Ministry of Industry and Information Technology and other seven central government departments jointly announced an action plan for sound development of ...

### [New energy storage key to spur economy](#)

May 6, 2025 · According to the "Energy Storage Industry Research White Paper 2025" released during the recently concluded 13th Energy Storage International Conference and Expo held in ...

### [China unveils plan to boost new-type energy storage by 2027](#)

Feb 24, 2025 · The plan focuses on technological innovation, including the upgrading of lithium batteries and support for disruptive technologies. China's Ministry of Industry and Information ...

### [New Energy Storage Technologies Empower Energy ...](#)

Nov 15, 2025 · As the new energy industry accelerates, countries have high hopes for new energy storage technologies as a solution to improve energy efficiency and safety. At the

same time, ...

## Manufacturing , Energy Storage

Oct 24, 2025 · The industry is building 25 new or expanded manufacturing facilities to support the grid-scale energy storage market, with 11 already in operation or under construction.

## China pushes for new-type energy storage industry , Asian ...

Feb 20, 2025 · Chinese authorities have announced measures promoting the new-type energy storage manufacturing sector. According to the government, the industry refers to the sector ...

## New-type energy storage poised to fuel China's growth

4 days ago · Megapack is an electrochemical energy storage device that uses lithium batteries, a dominant technical route in the new-type energy storage industry. Tesla's vice-president Tao ...

## China to boost new-energy storage manufacturing industry, ...

Feb 17, 2025 · China has unveiled an action plan to boost full-chain development of the new-energy storage manufacturing industry, aiming to expand leading enterprises by 2027, ...

## New energy storage welcomes major opportunities, and 3-5 ...

Nov 8, 2024 · The development of new energy storage has ushered in another "reassuring needle". On the evening of November 6, the Ministry of Industry and Information Technology

...

## **China unveils measures to bolster new-type energy storage manufacturing**

Feb 17, 2025 · Chinese authorities unveiled several measures on Monday to promote the new-type energy storage manufacturing sector, as part of efforts to accelerate the development of
