

Kingston can send battery logistics site

Overview

Why is Kingston a global company?

Kingston has established manufacturing facilities around the world to meet the growing needs of the storage and memory market on a global scale.

Why should you choose a trusted lithium battery supplier?

Li-ion batteries logistics is complex and highly regulated. This means it's essential to select a trusted supplier with the capabilities and knowledge to ensure your lithium batteries are properly handled throughout the supply chain. You need your batteries to arrive intact and on-time, to guarantee the continuity of your business.

How many locations does Kingston have?

Kingston operates 18 regional offices around the world, working with our distribution network in more than 175 locations. This level of availability through our worldwide network of distributors and resellers means we are there for you and our partners, wherever we're needed, whatever problem you need us to solve. Because we're Built on Commitment.

What makes Kingston a good company?

From everyday home products, small-to-medium businesses, to the world's largest data centers, leading wearable technology and top-tier cloud providers, Kingston provides reliable and quality hardware. We're Built on Quality. Kingston operates 18 regional offices around the world, working with our distribution network in more than 175 locations.
