

Laos household energy storage solar power station

Overview

Can China and Laos collaborate on a solar power project?

In what is the first large-scale solar photovoltaic project in Laos, CGN will collaborate with more than 70 Chinese and Laotian enterprises to establish a benchmark for electricity cooperation under the Lancang-Mekong Cooperation framework. The clean energy base is a vital power source supporting China-Laos power interconnection.

How does CGN contribute to Laos' economic development?

In addition to contributing to Laos' economic development, CGN is committed to sharing the benefits with local communities. CGN has implemented initiatives such as vocational training, educational support, community building, medical assistance, and agricultural aid to address urgent local needs and improve living standards.

How will China-Laos energy transition work?

The clean energy produced will be transmitted to Yunnan province in China via the China-Laos 500kV grid, supporting Yunnan's energy transition and power supply security. Laos is currently at a critical stage of its energy transition.
