

# Lithium-ion battery inverter in Krakow Poland

## Overview

---

Who makes a battery in Poland?

In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there. According to a McKinsey report, the Polish nation ranks second globally in battery production capacity, following China, with 73 GWh in 2022.

Who makes lithium ion batteries?

Enchem is a South Korean battery company specializing in lithium-ion battery production. They also manufacture electrolytes and high-purity solvents, which is an important material needed for lithium-ion batteries.

Where are the largest lithium battery factories in Europe?

In Poland, they established one of the largest lithium battery factories in Europe, located in Biskupice Podgórne. This new factory will help them expand their business and become a major battery supplier for major automotive brands in Europe. Their main products include lithium-ion batteries and energy storage systems.

Why is Poland a key player in the battery industry?

Poland has become a key player in the global battery industry, becoming the country with highest battery production in Europe. As the demand for lithium-ion batteries is getting higher over time, Poland has positioned itself as a major production hub for sustainable energy solutions in the world.

## Lithium-ion battery inverter in Krakow Poland
