# Mauritania develops flow battery sales

## Overview

---

Why is North America a major market for flow batteries?

The North American region has become a significant market for flow batteries, owing to the growing demand for energy storage devices and the rising adoption of renewable energy sources.

What factors restraining the global flow battery market growth?

The high cost, the low energy density, the lack of standardization, the competition from other energy storage markets such as the lithium-ion battery market, and other battery markets and the availability of raw materials are some of the primary factors restraining the worldwide flow battery market growth. What are Flow Batteries?

Who are the key companies in the flow battery industry?

This report presents detailed profiles of key companies in the flow battery industry, such as CellCube Inc., ESS Tech, Inc., Invinity Energy Systems PLC, Primus Power Solutions, VRB Energy, Sumitomo Electric Industries Ltd., RedFlow Ltd., etc.

Who makes zinc-bromide flow batteries?

An Australian company, Redflow Limited, has been producing zinc-bromide flow batteries with high energy density and a long lifespan. The rapid use of renewable energy sources, particularly in Chile and Argentina, has increased the demand for energy storage systems in South America.
