

Middle East Wind and Solar Energy Storage Project

Overview

Is wind energy a business opportunity in the Middle East?

While solar has become a popular avenue for companies in the Middle East due to its solar yield and reliability, wind energy is also becoming an opportunity for business growth. ACWA Power and Envision Energy are developing a 1.1 GW wind farm in Egypt's Suez Gulf region, which has the highest wind potential in the country.

Does Saudi Arabia have a wind power plant?

Saudi Arabia's Dumat Al Jandal Wind Power Plant boasts 99 turbines that generate 400 MW. It provides carbon-free electricity for 70,000 homes. Developed by EDF Renewables and Masdar, it supports Saudi Arabia's climate goals, reducing nearly 1 million tons of CO₂ annually.

What is Al Shuaibah solar project?

One of the most essential renewable energy projects it helps build is the Al Shuaibah solar project. It comprises the Al Shuaibah PV 1 and Al Shuaibah PV 2, which can produce 600 MW and 2,031 MW, respectively. Combined, they can supply energy to an impressive 450,000 households.

Will Egypt's first large-scale solar project be a Bess project?

Egypt's Upper Qena region will soon encompass the country's first large-scale hybrid solar and BESS project.

Middle East Wind and Solar Energy Storage Project

[Middle East and North Africa 2024 Energy Industry ...](#)

Jan 2, 2025 · To date, the most popular way to store excess energy has been pumped storage hydropower plants, but battery energy storage systems (BESS) and thermal storage in the ...
