

Mobile three-level power supply box dedicated to construction sites

Overview

What is a mobile temporary power supply device?

The Mobile Temporary Power Supply Device features a fully enclosed structure with a high protection rating, ensuring reliable safety. It comes with a built-in base, making installation convenient and unaffected by seasonal changes, allowing construction even in winter.

What is Langsung mobile temporary power supply?

Langsung's Mobile Temporary Power Supply Device offers safe, efficient, and standardized power access for construction projects. Features 10.5kV voltage, up to 315kVA capacity, IP33 protection, and weather resistance. Reusable, hoistable, and seasonally independent—reduces project cost by up to 40%. Trusted by construction firms globally.

Why do construction projects need temporary power sources?

Temporary power sources are almost always needed at the beginning of construction projects. The reliable and standardized use of temporary power is directly related to the safety, quality, and progress of the entire projects, and even affects the overall project revenues.
