

Namibia Commercial Solar Power System

Overview

Namibia's state-owned utility, NamPower, has partnered with two Chinese companies to develop the country's largest solar power plant, valued at N\$1.6 billion (US\$89 million). Does NEC offer solar energy in Namibia?

Solar energy is a free energy source and will never disappear. Therefore, NEC has been promoting solar energy since the early 1970s and offers solar system in Namibia. NEC Energy for solar water heater systems used in domestic and / or commercial applications as well as solar PV systems to generate electricity for various applications.

Does Namibia have solar power?

The southern region of Namibia experiences -on average- 11 hours of sunshine/day, and an average direct solar radiation of 3000 kWh/m²/year . With these conditions, Namibia has a huge potential for installing solar water heaters, solar photovoltaic (PV) systems, and concentrated solar power (CSP) plants .

What are the applications of solar power in Namibia?

Namibia's most common PV technology application is solar PV-based pumping, which is mainly used in cattle farms . Secondary solar applications in the country would be rural electrification, powering radios, lighting, TVs, and fans .

Why should you choose Solahart solar energy in Namibia?

Solahart has installed more than one million solar panels systems around the world and is backed by over 65 years as Australia's energy experts. If it comes to quality, efficiency, and long-term reliability, remember, it's not just solar, it's Solahart. If you need solar energy in Namibia, choose only the best.
