

New Zealand container generator factory

Overview

Who owns a generator in New Zealand?

Meridian Energy, Genesis Energy and Mercury Energy are 51% majority owned by the New Zealand government, while Contact is a 100% publicly traded company. An important feature of the New Zealand market is that all the major generators also own retailing arms. The companies are thus commonly known as "gentailers" (generator-retailers.).

Why should you choose a containerised generator?

Fire Detection Panels and Intruder Alarms: Enhanced safety and security. Our containerised generators are suitable for a wide range of applications, including: Super Silent: Super silent 65dBA at 1m for prime power running diesel and gas. Critical Backup Power: For MOD, NHS, and HMP sites, ensuring reliable performance in emergencies.

Who are generators direct?

At Generators Direct we offer a wide range of generation equipment and provide turn-key solutions for a number of our clients. We are able to offer alternative fuel gensets and provide whole of life cost analysis based on customer supplied information.

Are CPs generator containers controlled by DSE?

Our generators are coupled with Mecc Alte, Stamford, or Leroy Somer alternators and controlled via DSE or ComAp control panels to ensure top-notch performance. Why Choose CPS Generator Containers?
