

# New Zealand solar panel manufacturer

## Overview

---

Who are NZ solar installers?

Trusted by NZ installers. We supply premium solar panels, inverters, batteries, cables, and mounting systems — all in stock locally for fast delivery. Our global brand partnerships mean proven performance and reliability. Expect sharp pricing, responsive service, and tech you can trust — so your installs are faster, easier, and more profitable.

Who are the leading manufacturers of solar power?

We've partnered with industry leading manufacturers such as Fronius, REC, Victron, Tesla Powerwall, Phono Solar, BYD, Freedom Won, Shoto, Hopergy, S-5! and Tigo to deliver a wide range of solutions to our clients and to meet the needs of domestic, commercial, industrial, off-grid and utility scale solar power solutions.

Which brand of solar panels do you recommend?

Our preferred brand is Trina Solar which is Tier 1, and among the largest solar manufacturers in the industry with a proven track record and a culture of continual technological improvement. In most instances we offer the standard 330W panels but in a commercial setting the larger 440W modules may be more appropriate.

What is a solar battery system?

Our solar battery systems combine solar power with storage, providing maximum independence, efficiency, and peace of mind during power outages. We're committed to guiding customers in their journey towards energy self-sufficiency. We do this by providing reliable, sustainable, and cost-effective solar solutions that deliver long-term value.
