

# **New solar container lithium battery station cabinet production**

## Overview

---

How many kWh are in a battery storage container?

Each battery energy storage container unit is composed of 16 165.89 kWh battery cabinets, junction cabinets, power distribution cabinets, as well as battery management system (BMS), and the auxiliary systems of distribution, environmental control, fire protection, illumination, etc. inside the container; the battery container is 40 feet in size.

What types of energy storage systems does Jinko power offer?

Depending on application scenario, Jinko Power provides all types of customers with tailored energy storage system solutions, including power energy storage system integration solutions, industrial and commercial energy storage system integration solutions, and household energy storage systems.

Why should you invest in a lithium battery?

High-density, long-life, & smartly managed, they boost grid stability, energy efficiency, & reduce fossil fuel reliance. Tailored lithium battery solutions drive sustainable growth.
