

Newly commissioned energy storage projects

Overview

Where are the energy storage projects being built?

The energy storage projects will be located at three existing SCE power substations: 225 MW at Springvale Substation in Big Creek-Ventura, 200 MW at Hinson Substation in the Los Angeles Basin, and 112.5 MW at Etiwanda Substation in the Los Angeles Basin.

What is an energy storage project?

An energy storage project is a cluster of battery banks (or modules) that are connected to the electrical grid. These battery banks are roughly the same size as a shipping container. These are also called Battery Energy Storage Systems (BESS), or grid-scale/utility-scale energy storage or battery storage systems.

How long will energy storage projects last in 2024?

Regarding storage duration, the share of new energy storage projects with a duration of four hours or more increased to 15.4 percent in 2024, up by about 3 percentage points since the end of 2023.

What is new energy storage?

New energy storage refers to energy-storage technologies other than conventional pump storage. An energy-storage system charges when wind power or photovoltaic power generates a large volume of electricity or when the power consumption is low, and it discharges otherwise. China's operational efficiency of new energy storage continues to improve.

Newly commissioned energy storage projects

[New energy storage key to spur economy](#)

May 7, 2025 · Newly commissioned new energy storage projects in 2024 reached an impressive scale of 43.7 GW, representing a year-on-year growth rate of 103 percent and accounting for ...

[China energy storage project pipeline grows ...](#)

Sep 2, 2025 · According to data from China's Energy Storage Application Branch (CESA), mainland China has seen a surge in energy storage ...

[June , Monthly Project Tracker of New Energy Storage](#)

Jul 8, 2025 · According to incomplete statistics from the CNESA DataLink Global Energy Storage Database, in June 2025, newly commissioned new energy storage projects in China reached a ...

[China switches on its largest standalone ...](#)

Jul 21, 2025 · The first phase of the Huadian Xinjiang Kashgar, China's largest standalone battery energy storage project, was commissioned on ...

[China's new energy storage capacity exceeds 70 million KW](#)

BEIJING, Jan. 24 -- China's new energy storage sector has seen a rapid growth in 2024, with installed capacity surpassing 70 million kilowatts, said an official with the National Energy ...

[China's Energy Storage Market General Review and Expectation](#)

Statistics from China Energy Storage Alliance (CNESA) show that at the end of September 2023, the cumulative installed capacity of China's commissioned electric power storage projects was ...

[Biggest projects in the energy storage ...](#)

Dec 25, 2024 · Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in ...

[China energy storage project pipeline grows by 140 GWh in ...](#)

Sep 2, 2025 · China continued its high-growth energy storage market expansion in July 2025, with 1,556 new energy storage-related projects filed for registration, according to the Energy ...

[Eight Long Duration Energy Storage Projects ...](#)

Source: ASIACHEM, 23 July 2024 In the first half of 2024, China has successfully completed eight significant long duration energy storage ...

[China switches on its largest standalone battery storage ...](#)

Jul 21, 2025 · The first phase of the Huadian Xinjiang Kashgar, China's largest standalone battery energy storage project, was commissioned on July 19. The 500 MW/ 2 GWh plant represents ...

[Economic Watch: Rise of energy storage power stations ...](#)

Oct 1, 2024 · A newly commissioned energy storage power station is located in the vicinity of these cold storage facilities. It belongs to the first industrial and commercial energy storage ...

[Biggest projects in the energy storage industry in 2024](#)

Dec 25, 2024 · Following similar pieces in 2022/23, we look at the biggest energy storage projects, lithium and non-lithium, that we've reported on in 2024.

[China energy storage project pipeline grows nearly 140 GWh ...](#)

Sep 2, 2025 · According to data from China's Energy Storage Application Branch (CESA), mainland China has seen a surge in energy storage activity, with 1,468 new project ...

[Eight Long Duration Energy Storage Projects Completed in ...](#)

Source: ASIACHEM, 23 July 2024 In the first half of 2024, China has successfully completed eight significant long duration energy storage projects, marking substantial progress in the country's ...
