Who makes Nordisk air cargo pallets & containers?

For half a century, Nordisk have been developing and producing air cargo pallets and containers for the global market. Based in the seaside town of Holmestrand, Norway, it was a brave decision to enter into producing state-of-the-art air cargo containers and pallets. However, Nordisk's history goes back further than that.

What makes Nordisk A major player in air cargo containment solutions?

Innovative design, uncompromising material selection and outstanding engineering standards make Nordisk to a major player in air cargo containment solutions. Main deck containers are used to load freight and mail on wide-body aircraft and specific narrow body aircraft.

Does Nordisk ship air cargo?

For more than 50 years, Nordisk has helped customers to ship their cargo efficiently, reliably and safely. Today, we are a global leader in air cargo containers, supplying all major airlines and almost every wide-bodied aircraft in the world. This website uses cookies for monitoring traffic.

What is a solarfold on-grid container?

The solarfold on-grid container can also be expanded with various storage solutions. Each package contains a different number of Solarfold containers and the appropriate battery capacity. These combinations are not only used to optimize personal consumption, but can also be particularly valuable for energy trading on the control energy market.
