

# North American high-end inverter manufacturer

## Overview

---

Who makes power inverters?

EPC Power is the only manufacturer in North America producing grid-scale power inverters. A power inverter is a device that converts electricity between AC (Alternating Current) and DC (Direct Current). AC electricity is the type that powers our homes through power lines, while DC electricity is commonly supplied by batteries.

Who makes HiQ solar inverters?

Santa Clara-based HiQ Solar innovates with high-efficiency, true three-phase solar inverters for commercial and industrial applications. As a reputable source of solar inverters made in the USA, HiQ Solar emphasizes quality, durability, and performance in its product line.

Who makes the best solar inverter?

Known for their durable and reliable inverters made in the USA, OutBack Power is a premier choice for off-grid and battery-based solar systems. The company is based in Arlington, Washington and has been delivering advanced power solutions since 2001.

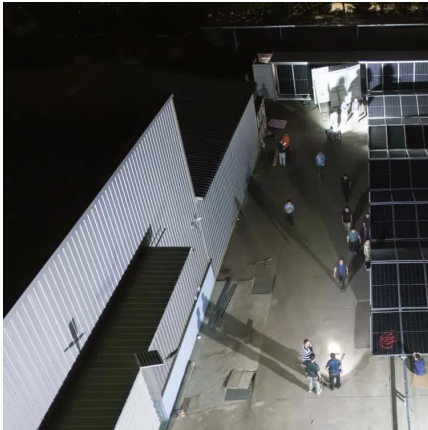

Who makes Midnite solar inverters?

As a homegrown American manufacturer, MidNite Solar produces US made solar inverters designed with the latest technologies. Their commitment to innovation and sustainability sets them apart in the American solar industry.
