

Norway Communications 5G base stations are universal

Overview

Does Norway have a 5G network?

Telia has delivered a private 5G network to Norway's armed forces in which mobile traffic is separated from the rest of the national network, providing flexible and secure communication.

Will Norway become the world's most digitalised country by 2030?

Four years after switching on Norway's first 5G base stations in the town of Lillestrøm, Telia's 5G network now covers close to 99 per cent of the population. Telia says it is now delivering nationwide 5G coverage in Norway before any other operator, and opens up new use cases in a country aiming to become the world's most digitalised by 2030.

Can a 5G base station be flown by a drone?

This summer, Telia partnered with rescue services in Norway to test a battery-powered, satellite-connected 5G/4G base station that can be flown by drone, allowing quick restoration of mobile coverage after natural disasters or extreme weather. Ericsson is Telia's technology partner for the Norwegian 5G rollout.

How many 5G mobile devices are connected to Telia's network in Norway?

Today, 1.6 million 5G mobile devices are already connected to Telia's network in Norway, with many customers accessing the internet solely through 5G wireless broadband. 5G's Norwegian numbers tell their own story.
