Norway supplies solar solar container lithium battery packs

Overview

What does Nordic batteries do?

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems. At Nordic Batteries we focus on what is important: safety, reliability and performance.

What is a battery module & pack?

Battery modules and packs for applications with high energy and/or power requirements such as grid stabilization, light trucks and energy storage. Robust battery containers with batteries and charging solutions for construction, maritime, grid, and other hard-to-abate industries.

What is ebess battery container?

The power grid is facing a number of challenges in meeting the growing demand for renewable energy. Nordic Batteries is at the forefront of developing customized battery and energy storage solutions to meet these challenges. Our eBESS battery container is a high-performance energy storage solution designed for use in the power grid.

Why should you choose ebess battery container?

It can be easily integrated into the power grid, providing a seamless and efficient energy storage solution. With advanced lithium-ion battery technology and intelligent control system, our eBESS battery container offers a scalable and modular energy storage solution that is easily expandable as energy demands increase.
