

# **Obtain quote for solar container government subsidies**

## Overview

---

What is the subsidy on solar?

Subsidy on solar is an initiative by the Government of India to promote clean and green energy. It aims to make solar power accessible to both corporate and private sectors, helping you save money and reduce dependence on the government grid.

How can I get a solar subsidy?

You can get a solar subsidy by installing your solar system through authorized solar companies in each state. The government has authorized some solar companies through an open bidding system to provide the subsidy. After installation, the solar company will put a request for net metering.

How will the government invest in shared solar?

The government's investment will provide shared solar systems and help to lower electricity costs for up to 25,000 households. Shared community solar banks help households who can't install their own systems. This will allow more households to benefit from renewable energy, including people who:

Does the Solar Energy Technologies Office provide financial assistance?

The Solar Energy Technologies Office (SETO) does not provide financial assistance to companies or individuals to install solar systems. The federal programs below may provide financial assistance to lower energy costs and may be applied to solar.
