Off-grid solar container for oil platforms 100kWh

Overview

What is a 100kW off-grid Solar System?

A 100kW off-grid solar system provides continuous power to all commercial and industrial areas even in the most remote locations. This solar system ensures that you will never run out of power. Explore more: Off Grid Solar System - A peace of mind with battery bank, advantage & disadvantage, FAQs and all details.

What is an off-grid 30kW Solar System?

An off-grid 30kW solar system consists of solar panels, a solar inverter, and a battery among other necessary gadgets. The battery, which is sufficiently powerful to run up to 24 kW load, stores the extra power generated by the solar panels to make it useful in the future.

What is a self-storing solar power system?

This process allows us to provide solar power solutions with quick turnaround and short lead times from inception to installation. This collapsible, self-storing systems was a collaborative effort between our engineering design team and engineers from one of our oil services customers. Self-storing solar power systems ready for transport.
