

# **Off-grid solar container single-phase used for field research in the UK**

## Overview

---

The whole system is plug-and-play, easy to be transported, installed and maintained. It is an one-stop integration system and consist of battery module, PCS, PV controler (MPPT) (optional), control sys.

What is an off grid solar container unit?

Attaching to the grid can also be expensive and this can be an issue in the UK as well as Africa or Latin America. An Off Grid solar Container unit can be used in a host of applications including agriculture, mining, tourism, remote islands, widespread lighting, telecoms and rural medical centres.

What is an off-grid container system?

Fitting or DIY. Sunstore's off-grid container systems are ideal for delivering sustainable power to remote areas, off-grid sites or for emergency backup. They come as two types. An off-grid power system that delivers power to converted container buildings and container-based renewable energy systems designed to supply power to other buildings.

Which solar power systems are best for container conversions?

Solar Power Systems for Container Conversions. Fitting or DIY. Sunstore's off-grid container systems are ideal for delivering sustainable power to remote areas, off-grid sites or for emergency backup. They come as two types.

Can a containerized Solar System be installed off-grid?

Off-Grid Installer have the answer with a containerized solar system from 3 kw up wards. Systems are fitted in new fully fitted containers either 20 or 40 foot depending on the size required.
