

# Oslo s main export of solar modules

## Overview

---

How are Norwegian energy companies involved in solar energy?

Norwegian energy companies have increasingly involved themselves in solar energy, very often in cooperation with IFE in research projects. IFE participates today in multiple projects on solar energy, financed both by involved companies, Innovation Norway, Research Council of Norway, and Horizon Europe.

Is Norway a good place for solar energy?

Snow, cold and hardly any sun for four months of the year: at first glance, Norway might not seem like the ideal place for a prospering solar energy industry. Nevertheless, Norway is making great strides in developing the technology, materials and solutions needed to make use of the largest energy source in our solar system.

What is the Oslo Solar Energy Expo?

The Oslo Solar Energy Expo is a must-attend event for Norwegian solar companies looking to showcase their latest technologies and connect with industry leaders. This annual fair provides a platform for discussing current trends, challenges, and opportunities in the solar energy sector.

Why is Oslo a good place to invest in solar energy?

Oslo stands as a crucial hub for the solar energy industry in Norway, with its strategic location facilitating both domestic and international logistics. Companies based here benefit from the city's robust infrastructure, which supports efficient distribution channels across Europe and beyond.
