

Ottawa Air Cooled Energy Storage Project

Overview

When did energy storage start in Canada?

The first energy storage project in Canada, the Sir Adam Beck Pump Generating Station, came online in 1957. However, the next project did not come online until 2013. There are three main types of energy storage currently commercially available in Canada:.

What is the fastest growing energy storage technology in Canada?

BESS is the fastest growing energy storage technology in Canada and is also the dominant storage technology in terms of capacity and number of sites. All but four projects proposed to be commissioned by 2030 are battery storage, with two CAES and two PHS projects also proposed.

Will \$6 million go toward Hydro Ottawa's energy resource accelerator program?

\$6 million from the federal government's Energy Innovation Program will go toward the utility's Ottawa Energy Resource Accelerator program. Hydro Ottawa CEO Bryce Conrad said most of the \$6 million in federal funding announced Thursday would go toward paying for back-room computer systems running the AI algorithm.

Can thermal energy storage be integrated with HVAC systems?

Integrating Thermal Energy Storage (TESS) systems with HVAC systems offers a promising solution. TESS allows the storage of thermal energy, enabling the shifting of energy consumption to off-peak hours and reducing reliance on the grid during peak demand. Benefits of TESS Integration:

Ottawa Air Cooled Energy Storage Project

[Market Snapshot: Energy storage in Canada may multiply by ...](#)

Jul 23, 2025 · The first energy storage project in Canada, the Sir Adam Beck Pump Generating Station, came online in 1957. However, the next project did not come online until 2013. There ...

[Evolugen gets city council support for 250MW IESO tender ...](#)

Jun 20, 2025 · After initially rejecting a 250MW standalone BESS proposal from Evolugen, Ottawa City Council has pledged its support for the project.

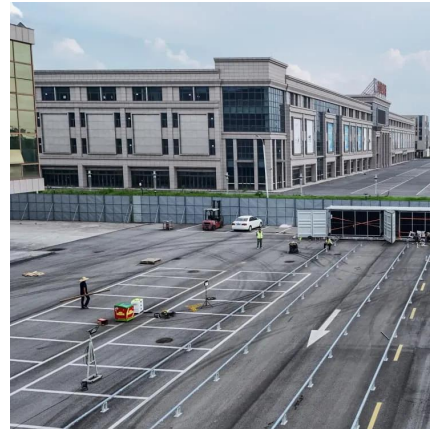

[Market Snapshot: Energy storage in Canada ...](#)

Jul 23, 2025 · The first energy storage project in Canada, the Sir Adam Beck Pump Generating Station, came online in 1957. However, the next project ...

[Canada Invests in Carbon Capture and Storage in Ottawa](#)

Aug 8, 2025 · The project aims to advance direct air capture technology designed for cold climates by scaling up CO₂ capture beds. It uses structured zeolite packing -- a porous ...

[Two Battery Energy Storage System Projects Selected by the ...](#)

May 16, 2024 · Trail Road Battery Energy Storage Systems is a 150 MW battery storage project with 600 MWh of energy storage, located in the City of Ottawa, Ontario. Evolugen has ...

[Thermal energy storage, integrated with HVAC* systems, to ...](#)

Oct 22, 2025 · Integrating Thermal Energy Storage (TESS) systems with HVAC systems offers a promising solution. TESS allows the storage of thermal energy, enabling the shifting of energy ...

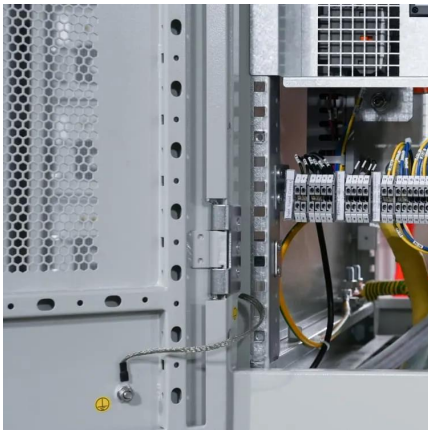

[Canada invests in carbon capture and storage in Ottawa . IFRF](#)

Aug 26, 2025 · Natural Resources Canada has announced an investment of \$2.5 million from the Energy Innovation Program (EIP) to support Ottawa-based TerraFixing in developing made-in ...

[Statement: Ottawa Council Applauded for Advancing ...](#)

2 days ago · The battery storage project alongside the six solar projects Council supported earlier this fall will reduce the city's reliance on expensive gas-fired electricity during peak demand ...

[Federal funds for Hydro Ottawa AI system.](#) [Ottawa Citizen](#)

1 day ago · Federal funds for Hydro Ottawa AI system could help feed power-hungry Kanata tech park, councillor says \$6 million from the federal government's Energy Innovation Program will ...

Ottawa BESS 2

Ottawa BESS 2 is a proposed up to 75 Mega-Watt ("MW") lithium-ion Battery Energy Storage System ("BESS") that will be located at 2393 8th Line Road, Ottawa, ON, K0A 2P0. The ...
