

Price of a 20kW European collapsible container

Overview

Below is a port-to-port container shipping rates chart for cost ranges of common international shipping destinations (from Shanghai, China): You can view live international freight rates, prices, and trends, upd.

How much does a 40ft container cost?

A 40ft standard container from China to the US West Coast costs \$3,500–\$6,000. Shipping to the East Coast ranges from \$4,500–\$7,500. These rates include base ocean freight and surcharges but not destination charges, customs clearance, or inland transportation. High-demand periods can push rates 30%–50% higher.

Are global container shipping rates still 46% lower than last year?

Global container shipping rates are still 46% lower than they were in November last year. Drewry's World Container Index puts the global average price of shipping a 40ft container at \$1,859 (USD) for 13 November, 2025.

How much does container shipping cost?

China-Europe rates are around \$3.70/kg, China-North America at \$5.30/kg, and Southeast Asia-North America at \$4.63/kg. Use the cost calculator and keep up to date with container shipping pricing trends to get a better idea of what your total landed costs will be. China – N. America weekly prices dropped 5% to \$ 5.30/kg.

How do shipping container cost calculators work?

Online shipping container cost calculators like FreightWise help take the guesswork out of your logistics budget. Enter your origin and destination ports, container size, cargo type, and shipping date to get an accurate quote based on current market rates. These calculators also consider seasonal changes and apply appropriate surcharges.
