

# **Price quote for 20-foot photovoltaic shipping containers used on African farms**

## Overview

---

Short version: From 2024, it costs between \$2,800 and \$5,500 to ship a 20-foot container of solar panels around the world, depending on origin, destination, fuel prices, and demand. How much does it cost to ship a 40 foot container?

The cost to ship a 40-foot container typically ranges from \$2,500 to \$5,000, depending on the destination, the shipping company, and additional fees. How much does a new 20-foot shipping container cost?

A new 20-foot shipping container can cost anywhere between \$2,000 and \$3,000.

How much does a 20 ft container cost?

Generally, used 20' containers start around \$1,500, with newer "one-trip" models ranging from \$2,500 to \$4,000. Currently, due to a global shortage and increased demand, these costs may be at the higher end or even exceed these ranges.

Is a 20 foot container better than a 40 ft container?

When comparing 20-foot and 40-foot containers, the choice often depends on the needed space and budget. A 20-foot container is more affordable and sufficient for those with limited space requirements.

How much does sea freight cost?

The sea freight rates per kg typically range from \$1 to \$4 per kilogram, depending on the distance and type of service. Heavier shipments often come with a better rate per kilogram. Calculate your shipping container cost easily with our Shipping Container Cost Calculator. Get accurate rates for 20' & 40' containers and sea freight.
