

Price quote for a 20kW solar-powered container for mining in Australia

Overview

What is a solar powered shipping container?

At SCS Australia, we create solar powered shipping containers that combine renewable energy technology with the strength and mobility of a shipping container. These self-sufficient units are ideal for powering off-grid operations, mobile businesses, events, and remote projects—all while reducing carbon footprint and cutting energy costs.

What is sustainable power for mining?

Sustainable Power for Mining. Off-Grid & Hybrid Solar Systems Off-grid solar systems and hybrid power ensure consistent energy supply in remote mining locations. With solar integration, battery storage, and backup generators, these industrial energy solutions deliver uninterrupted power to keep operations running smoothly.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

How can a solar power system help a mining site?

Reduce carbon emissions by integrating solar with battery storage to replace or supplement diesel generators. Most sites reduce diesel usage by up to 95%. Ensure critical mining infrastructure is powered efficiently. From equipment to communications, we'll design a cost-effective energy solution that meets your demands and lowers operational costs.
