

# **Procurement of 200kWh Solar Containers from Türkiye**

## Overview

---

How many people use solar energy in Turkey?

As a consequence of these flourishing developments, the Turkish solar energy sector currently employs over 50,000 people. The share of variable renewable energy sources, such as solar and wind, in total electricity generation is expected to increase. This is considering Türkiye's current flexibility opportunities, and renewable energy potential.

How many solar companies are there in Türkiye?

There are more than 250 Engineering, Procurement, and Construction (EPC) companies actively working in Türkiye, excluding the small companies providing services locally. As a consequence of these flourishing developments, the Turkish solar energy sector currently employs over 50,000 people.

Does Türkiye have a wind & solar auction?

Türkiye's wind and solar auctions has tendered 7.8 GW of solar and wind capacity, but less than a quarter is currently operational. Recent policy changes aim to boost investor confidence, yet faster permitting processes and better financing are needed to meet 2035 targets.

How many GW will Türkiye have by 2035?

The new 2035 Renewable Energy Roadmap targets announced by MENR in October 2024 set an annual goal of 2 GW for YEKA tenders, with an additional 2 GW planned by the end of 2025. Türkiye also raised the wind and solar capacity targets from the National Energy Plan by 45%, aiming to nearly quadruple the current capacity from 32 GW to 120 GW by 2035.
