

# Riyadh Energy Company uses mobile energy storage containers for bidirectional charging

## Overview

---

Does Saudi Arabia have a battery energy storage system?

The 2 GWh battery energy storage system (BESS) features 122 prefabricated storage units, designed and supplied by China's BYD. From ESS News Saudi Arabia has officially connected its largest battery energy storage system (BESS) to the grid, marking a significant milestone in the country's renewable energy expansion.

Is Saudi Arabia a leader in energy storage?

To date, Saudi Arabia has achieved significant milestones in the energy storage sector. With the official launch and operation of the Bisha Energy Storage Project, Saudi Arabia has successfully entered the ranks of the top ten global energy storage markets.

Will Saudi Arabia deploy 48gwh of battery energy storage systems by 2030?

Saudi Arabia's Energy Minister, Prince Abdulaziz bin Salman, stated at an event that Saudi Arabia plans to deploy 48GWh of battery energy storage systems by 2030.

Will Saudi Arabia have energy storage projects in 2025?

According to Saudi Arabia's plans, the installed capacity of energy storage will show a rapid growth trend. In the short term, Saudi Arabia plans to have 8GWh of energy storage projects in operation by 2025, and this figure will increase to 22GWh by 2026.
