Romania New Energy Communication Power Supply Battery Cabinet Factory

Overview

What is Romania's largest battery project?

Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date. The company will build a 400 MWh facility in Floreşti, Cluj county, which is expected to be operational by the end of 2025.

Will Romania become a European energy storage center?

A €50 million project promises to turn Romania into a European energy storage center, thanks to an agreement between US giant Lockheed Martin and Romanian company Sinteza SA.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Who is involved in a Romanian energy project?

The project is part of a wider series of initiatives supported by the Energy Ministry, which also includes other Romanian companies such as Crişana Pro Construct SA, Ecorec Recycling SRL and Grima Com SRL.
