Romania's largest energy storage project settled

Overview

When will Romania's largest battery storage project start?

The original call, which referred to at least 620 MWh, was expected to see projects selected by the end of 2023, according to reports. In April, Romania's largest battery storage system, of 24 MWh, was put into operation. It is the first phase of a project totaling 216 MWh.

What is Romania's largest battery storage system?

In April, Romania's largest battery storage system, of 24 MWh, was put into operation. It is the first phase of a project totaling 216 MWh. The facility is connected to the Mireasa wind farm of 50 MW, while a 35 MW solar power plant is expected to be added by the end of 2024.

What does Romania want from energy storage projects?

Romania wants mature projects that can be implemented quickly and that can help balance the system, he was quoted as saying. Romania has allocated EUR 80 million under its National Recovery and Resilience Plan (PNRR) for energy storage projects, which is expected to result in contracts for a total of 1.8 GW of capacity, according to Burduja.

How is Romania transforming the European energy landscape?

The investment wave, supported by key regulatory changes, is elevating Romania in the European energy landscape. Leading the development is Nova Power & Gas, part of the Romanian E-Infra Group, which has unveiled plans for the nation's largest battery project to date.

Romania's largest energy storage project settled

[The largest energy storage battery in Romania will be ...](#)

Nov 11, 2025 · The project was carried out by the company Nova H, and obtained the establishment authorization in July. Not only is it the largest battery in Romania, but once built, ...

[Nova Power & Gas confirms investment in the largest battery storage](#)

Bucharest, July 22, 2025 - Nova Power & Gas, a Romanian energy company and part of the E-INFRA Group, announces the launch of the largest battery energy storage project in Romania.

[Romania's ambitious energy storage plans: 5 GW by end-2026](#)

Jul 18, 2024 · In April, Romania's largest battery storage system, of 24 MWh, was put into operation. It is the first phase of a project totaling 216 MWh. The facility is connected to the ...

[Romania's largest electric energy storage launched by Prime ...](#)

Oct 4, 2024 · Prime Batteries, a company supported by EIT InnoEnergy, and Monsson have put into operation the largest electricity storage capacity in Romania. This is part of the first

hybrid ...

[Solar power station settled in Romania, accelerating the ...](#)

Nov 28, 2025 · Gavrila made it clear that "we plan to equip all of our power generation facilities in Romania with battery energy storage systems, while also actively developing independent ...

[Toki Power picks up 300 MWh grid storage project in Romania](#)

21 hours ago · Austrian developer Toki Power has acquired a 150 MW / 300 MWh battery storage project in Romania that will operate independently to provide grid balancing services.

[Nova Power & Gas confirms investment in Romania's largest ...](#)

Jul 23, 2025 · Nova Power & Gas, a Romanian energy company and part of the E-INFRA group, announces the start of the largest battery storage project in Romania. The facility, to be built in ...

Spotlight on Romania: The 600 MWh battery storage boom

Jul 31, 2025 · " [The Eurowind Energy] contract marks the most significant storage project in our portfolio and consolidates the position of our Renewable EPC by Allview division as a key ...

Romania advances municipal storage buildup, 500 MWh battery project

Nov 18, 2025 · Romania's new EUR150 million (\$173.8 million) municipal storage program could add 385 MW of capacity and coincides with financing for one of the country's largest standalone ...
