# Rooftop solar panels export

## Overview

---

Why is the global rooftop solar PV market growing?

The global rooftop solar PV market is expected to witness increased demand during the forecast period. Increase in investment in solar power generation in residential and commercial buildings has led to rise in demand for rooftop solar services, which positively impacts the market growth.

What are the key global rooftop solar PV market players?

Key global rooftop solar PV market players include 3M, Koninklijke Philips N.V., Pentair PLC, Panasonic, and others. These companies contribute through innovative technologies, market presence, customer service, and sustainability. These companies invest in high-efficiency panels and hybrid systems for enhanced energy independence.

Which region dominated the global rooftop solar photovoltaic (PV) market?

Asia-Pacific segment dominated the global rooftop solar photovoltaic (PV) market. In Asia-Pacific, solar energy is widely used in the generation of electricity for standalone systems and rural electrification. India and China are major players in this region majorly due to their huge population and their energy demand.

What is the market share of thin film rooftop solar PV?

Thin film rooftop solar PV market dominated the global rooftop solar PV market and accounted for the largest revenue share of 41.32% in 2024, primarily driven by growing investments in renewable energy.
