

Serbia Electric Flow Battery Manufacturer

Overview

Could Serbia be a technological leader in LFP battery production?

The Republic of Serbia could be a technological leader in LFP battery production in the whole world outside of China, because it has a chance to become the first in Europe to mass-produce this type of battery. The signed Memorandum with the European Union envisages a serious focus on the ecosystem of electric vehicles and battery production.

What is the first LFP battery cell facility in Europe?

First LFP battery cell facility to supercharge electric vehicle production
Subotica, Serbia, 24. April 2023 – Today, ElevenEs, the pioneer in LFP (Lithium Iron Phosphate) cathode battery technology, announces the opening of the first industrial facility dedicated to LFP battery cell production in Europe. ElevenEs, backed by EIT InnoEnerg.

Where are LFP battery cells made?

Announces the opening of the first industrial facility dedicated to LFP battery cell production in Europe. ElevenEs, backed by EIT InnoEnerg is leading battery innovation in Europe with its new production site, located in Subotica, Serbia. The manufacturing facility will specialise in producing high-quality LFP prismatic cells for use.

Can Serbia become the energy power of the world?

Serbia has a chance to become the energy power of the world in a few years. If we were to form an entire production chain in Serbia, it would certainly open up space for numerous investments in our country. The economic and market potential of this type of business model and supply chain in Serbia is enormous.

Serbia Electric Flow Battery Manufacturer

[Top 5 EV Battery Companies in Serbia \(2025\) , ensun](#)

The Serbian government has shown a proactive stance in promoting electric mobility, which includes incentives for EV production and battery manufacturing. This supportive regulatory ...

[Serbia's ElevenEs unveils new battery with half a million ...](#)

Jun 12, 2025 · Serbian battery manufacturer ElevenEs has announced that it is launching a new lithium iron phosphate (LFP) battery cell designed specifically for electric vehicle and industrial ...

[ElevenEs opens Europe's first LFP battery cell manufacturing ...](#)

Apr 29, 2024 · At which point, the company will operate at a combined capacity of 48GWh - which equates to enough battery cells to power one million medium-sized electric cars each ...

[EU, Serbia to support ElevenEs in battery cell manufacturing ...](#)

Oct 14, 2025 · At the EU-Western Balkans Investment Forum in Tirana, Serbian company ElevenEs signed a joint declaration of support with representatives of the European ...

[Ranking of Serbian flow battery companies](#)

Now that we got to know flow batteries better, let us look at the top 10 flow battery companies (listed in alphabetical order): . Also known as the vanadium flow battery (VFB) or the vanadium ...

[ElevenEs opens Europe's first LFP battery cell facility](#)

Apr 25, 2023 · ElevenEs opens Europe's first LFP battery cell facility to supercharge electric vehicle production ElevenEs opens Europe's first LFP battery cell facility to supercharge ...

[Serbia as tech hub for European battery industry and new ...](#)

Dec 13, 2023 · The European battery industry is a growing sector, with a number of companies investing in new production facilities. This has been driven by a number of factors, including ...

How we became the first battery factory in Europe and what ...

The Republic of Serbia could be a technological leader in LFP battery production in the whole world outside of China, because it has a chance to become the first in Europe to mass ...
