

Service Energy Storage Charging Station in Antwerp Belgium

Overview

How many MCS charging stations are there in Antwerp-Bruges?

There are now a total of two MCS chargers at the Port of Antwerp-Bruges location. It was already clear that Milence wanted to deploy MCS charging stations at its locations. The idea always was to first introduce CCS, then MCS solutions.

Why do we need a charging hub in Antwerp-Bruges?

Annick De Ridder, President of the Board of Directors of Port of Antwerp-Bruges: “These charging hubs make both truck parkings in the Antwerp port area an indispensable link in electric truck transport. Together with Milence, we remove an important barrier for domestic and foreign transporters to switch to electric trucks.

Where is the charging hub located in Antwerp & Bruges?

The charging hub located at truck parking Ketenis together with the one to open at truck parking Goordijk contribute to the green corridor initiative between the ports of Antwerp and Bruges, enabling the use of electric heavy-duty vehicles.

How will the port of Antwerp Bruges hub support the transition to electric transport?

The hub at Port of Antwerp Bruges is the starting point for one of the first corridors connecting Antwerp with Stockholm. “We are confident that that this development will not only support the transition to electric freight transport but also reinforce Europe’s leadership in sustainable mobility solutions”, Anja van Niersen, concluded.
