

# **Solar Container Two-Way Charging Procurement Contract**

## Overview

---

What type of contract does a solar project use?

to project. Most solar projects using an EPC Contract NSP and Offtaker. NSP and Offtaker. NSP and Offtaker. Sometimes a tolling agreement is operated and despatched. In the.

How do energy storage contracts work?

For standalone energy storage contracts, these are typically structured with a fixed monthly capacity payment plus some variable cost per megawatt hour (MWh) of throughput. For a combined renewables-plus-storage project, it may be structured with an energy-only price in lieu of a fixed monthly capacity payment.

Is a contract price a factor in the bankability of a solar project?

Price is also a consideration but is usually considered separately from the bankability of the contract because the contract price (or more accurately the capital cost of the solar facility) relates to the bankability of the project as a whole.

Can I Opt in to solar two-way charging?

Yes, you can opt in to solar two-way charging, however you will see a \$0 solar export charge on your bill. More information about solar rates in your state
