

Solar container communication station small solar installation manufacturer

Overview

What is a mobile solar PV container?

High-efficiency Mobile Solar PV Container with foldable solar panels, advanced lithium battery storage (100-500kWh) and smart energy management. Ideal for remote areas, emergency rescue and commercial applications. Fast deployment in all climates.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Why do petroleum companies use mobile solar containers?

Petroleum companies often operate in distant locations with limited access to grid power. This is where a mobile solar containers can act as an additional power source to run the equipment. Good choice for disaster reliefs whenever it is important to deliver electricity as quickly as possible.

What is a self-unloading mobile solar container?

Self-unloading mobile Solar Container. Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work.
