# **Solar container energy storage system withstands voltage 1500v**

## Overview

---

Why should you choose Sunway ESS battery energy storage system?

5□High degree of standardization, integration, rapid deployment, short construction and commissioning period, simplicity and easy maintenance. Sunway Ess battery energy storage system (BESS) containers are based on a modular design. They can be configured to match the required power and capacity requirements of client's application.

What is a container energy storage system?

Container energy storage systems are typically equipped with advanced battery technology, such as lithium-ion batteries. These batteries offer high energy density, long lifespan, and exceptional efficiency, making them well-suited for large-scale energy storage applications. 3. Integrated Systems.

What is a stationary battery energy storage system?

The stationary battery energy storage systems feature multi-level short circuit protection at the pack, rack, and container levels. Advanced BMS and sophisticated data algorithms ensure thermal stability across both pack and rack levels. Our systems feature 314Ah battery cells integrated into an IP67-rated battery pack design.

What is a containerised energy storage system (BESS)?

They can be configured to match the required power and capacity requirements of client's application. Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various storage technologies and for different purposes.
