

Solar container outdoor power with indoor lighting

Overview

What are solar lighting fixtures for shipping container?

Sun-In-One LED lighting fixtures for shipping container solar lighting kits provide you with enough light to get equipment or supplies out of the container, up to high-quality lighting, and allow you to use the shipping container as a workshop and have enough light to do fine detailed work.

What is a shipping container solar lighting kit?

Shipping Container Solar Lighting Kits provide lighting in shipping containers and storage areas with 2 days of battery technology for cloudy, rainy, or snowy days with 8 hours per day of run time.

How much solar can a 20 foot container hold?

20 foot containers can expand from 3,000W of solar up to 6,000W. 40 foot containers can expand from 3,000W up to 12,000W of solar in the future. We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount.

How do shipping container lights work?

They are mounted on the twist-tight lock with magnets to provide external lighting around the Shipping Container. We also offer vapor-tight and explosion-proof LED container lights and LED Floodlights. Shipping containers are not very large spaces with relatively low ceiling heights.
