Solar door lighting

Overview

How do you Mount outdoor solar lights?

Mounting: Some outdoor solar lights mount like traditional light fixtures using screws, including our best wall-mounted pick, the Cyhkee Motion Sensor Solar Powered Wall Lanterns.

How many solar lights are there?

Over the past two years, we've tested 78 different outdoor lights (you read that right), including solar pathway, smart, spotlights, lanterns, wall-mounted, and string lights. We became solar light experts, if we do say so ourselves.

Where should outdoor solar lights be placed?

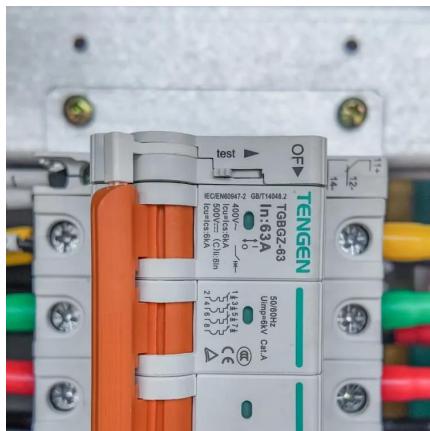

To get the best results from your outdoor solar lights, place them where they get six to eight hours of direct sunlight. If they're designed to be wall-mounted, consider placing them up high, so they're closer to the sun.

What are the best solar-powered string lights?

Stringing: Solar-powered string lights like our best string lights pick, the Brightech Solar LED String Lights, can provide ambiance to your outdoor space all year.
