

Solar fan price in Khartoum

Overview

How much does a solar fan cost in India in 2025?

The solar fan price in India in 2025 can range from ~Rs. 1,400* for entry-level fan-only models to ~Rs. 25,000+* for premium high-quality solar attic ventilators by reputable brands. Here's a tabulated snapshot of the estimated solar fan price list in India in 2025:.

What are the different types of solar-powered fans?

The different types of solar-powered fans for homes include ceiling fans, pedestal fans, desk fans, and portable fans. The final solar fan price depends on the brand and quality of the product. Here are the estimated cost details:

*Please note: The above-mentioned solar fan price list is indicative, and not fixed.

What is a solar portable fan?

Solar portable fans: These ultra-compact fans are designed for outdoor activities, travel, and emergency situations. These solar electric fans often include rechargeable solar batteries, multiple power options (solar, USB, AC adapter), and rugged construction for outdoor use.

How do I choose a solar fan?

Look at airflow, not just watts: The airflow rating (CFM or m³/min) tells you how much air the fan will be able to move. Solar panel capacity: Choose panels that generate slightly more power than fan consumption to account for efficiency losses and battery charging.
